### **About Us:**

Cork Centre for Independent Living (CCIL) is a HSE funded, not for profit organisation. Cork CIL specialises in working with people with disabilities aged 18-65 in their homes in the community offering supports to promote independent living, choice, and control in their daily lives.

### **Mission Statement:**

Our vision is that people with disabilities in Ireland have to the greatest extent possible, the opportunity to live, free from discrimination, a full life of their choosing, with their families and as part of wider society and their local community

Our mission is to work with and on behalf of people with disabilities to develop and influence public policy, public services, supports and opportunities which maximise people's choice and control over their lives and services.

The experience and perspectives of people with disabilities is at the centre of what we do and underpins our values of Independence; Transparency; Accountability; Integrity and Honesty

At the centre of the Independent Living Philosophy are people, and disabled people like everyone else being able to have control, with the opportunities to make decisions about to how they live their life. Cork Centre for Independent Living [Cork CIL] is a community-based service. We work mainly in the south Lee area of Cork city providing Assisted Living Services on behalf of the HSE and work to ensure that the philosophy of independent living underpins our services
